PROGRAMMERS MANUAL

PART 1

## PREFACE

---

RC 3600 PROGRAMMERS MANUAL is a modular manual which consists of a great number of submanuals. Each submanual describes a certain specified part of a RC 3600 System. To describe a specific RC 3600 System some of the submanuals usually are needed. The submanuals included in this manual, or part of manual, are therefore marked with an X in the list of contents.

If changes are made in the RC 3600 System after delivery, the technician who perform the changes must take care of updating this manual.

This manual is dedicated to a RC 3600 System
