## G.703 SYNCHRONOUS LINE ADAPTER, F 194

**■** CCITT G.703  
Communications

**■** One Full Duplex Port

F 194 is a synchronous line adapter providing on-board I/O expansion support for CCITT G.703 contra-directional communication channel. Plugging directly into RC3546, 2 channel communications controller base board, F 194 provides one G.703 serial communication channel. The transmit and receive clock must be supplied from the line.

## 1. Specifications:

- |                                     |  |
|-------------------------------------|--|
| 1.1 I/O Channel Interface:          | CCITT g.703 (contradir.)                       |
| 1.2 Number of Full Duplex Channels: | 1  |
| 1.3 Baud Rate:                      | Up to 64 Kbit/s                                |
| 1.4 Power Consumption:              | +5V/0.6A                                       |
| 1.5 Heat Dissipation:               | 3 kcal/h = 13 kJoule/h.                        |
| 1.6 Cable Assemblies:               | Produced upon request, no standard applicable. |
