RC-COMPUTER

RC Computer is a Danish based and Danish owned company with a share capital of 60 million Danish crowns (apprx. 12 million U.S. $).

There are 3 major groups of shareholders:

– public organizations i Denmark
– Danish telephone companies
– companies and organizations within private sector in Denmark

Each of these groups holding apprx. one third of the share capital.

The company has 4 subsidiaries: Germany, England, Switzerland, and France. The company is represented in 6 other countries by distributors: Norway, Sweden, Finland, Holland, Kuwait, and U.S.A.

RC Computer has specialized in providing solutions on own hardware and basic software in the following areas:

– datacommunications: frontendsystems, private datanetworks and intelligent terminals.
– teleadministrative systems: directory assistance systems, intercept systems and surveillance systems.
– servicebureau systems: standard real time applications, intelligent terminals and supportsystems.

Of course the RC Computer hardware and basic software can at the same time be used by customers to develop their applications.
