

RC 3652

2.4 MB Disc Cartridge Drive

*REMOVABLE MAGNETIC DISC CARTRIDGE
WITH 2.4 MILLION CHARACTER CAPACITY.*

RAPID DATA ACCESS.

NO SPECIAL ENVIRONMENTAL REQUIREMENTS.

General Information

The RC 3652 moving head disc cartridge drive is used for the storage of programs, transactions and data. For data storage it uses a single removable cartridge disc.

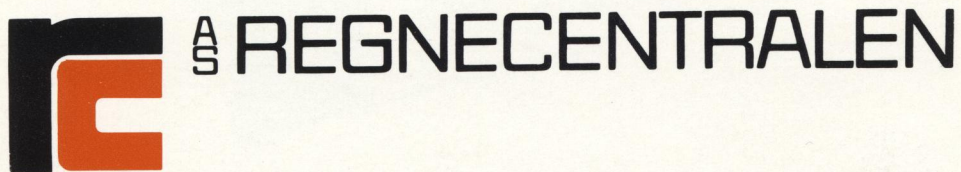

Specifications

Capacity:	2.4 million 8-bit bytes (1.2 million bytes per side)
Bit Density:	2200 bpi
Recording Format:	12 sectors with 512 bytes per track 400 tracks (200 on each side)
Access time:	For the same track: 15 milliseconds Average: 70 milliseconds Maximum (over 200 tracks): 135 milliseconds
Power Requirements:	Start: 280 W, 220 V AC Running: 70 W, 220 V AC
Heat Dissipation:	60 Kcal/h

Dimensions

The RC 3652 is mounted in an RC standard cabinet and occupies a space 17,8 cm high in it.

Weight: 19,5 kg
