

Software Schedule A

<u>Set Number</u>	<u>Description</u>
<u>S44000/00</u>	<u>2903 Educational System 2903 Programs</u>
-	An appropriate ETS 2 EXEC 1
-	An appropriate ETS 2 EXEC 2
E7310/21	Buffered enquiry system
E7901/00	Fast floating point feature

plus any of the following items if required:

E7310/54	7020 mode RJE to System 4
E7310/56	7020 mode RJE to 1900
E7310/55	IBM 2780 emulation facility

Note that RJE also requires appropriate software from Schedule B.

S44000/01	Interactive BASIC system
S44000/20	7502 TCP for up to 8 teletypes
S44000/21	7502 TCP for up to 12 or 16 teletypes

S44000/02	Utilities and Compilers: General and Direct Access Utilities File re-organisation and Sort/Merge Cobol Cobol console enquiry subroutines Fortran
-----------	---

S44000/03	Applications software: Stock control COMPAY PROSPER FIND-2 PERT
-----------	--

Note that set number S44000/00 is an umbrella covering all software in this schedule.

Software Schedule B

The Licence fees for this software are specially reduced for educational users.

<u>Set Number</u>	<u>Description</u>	<u>Monthly Fee £</u>
* S44000/30	7020 RJE to System 4	12.00
* S44000/31	7020 mode RJE to 1900	12.00
* S44000/32	IBM 2780 emulation facility	12.00
S40003/01	DDE system under EXEC 1	4.50
E7902/00	DDE file enquiry	9.00
S40201/05	Cobol ETS 2 DDE subroutines	4.50
S40200/07	RPG2 ETS 2 DDE subroutines	4.50
S40200/00	RPG2	4.50
S40200/05	RPG2 console enquiry subroutines	4.50
S40200/06	RPG2 ETS 2 VDU subroutines	22.50
S40201/04	Cobol ETS 2 VDU subroutines	22.50
S40300/00	Bill of Materials Processor	45.00
S40301/00	On-line Order Entry	45.00
S40100/01	Magnetic Tape Utilities	4.50
S40101/00	Graph plotter routines	4.50

* Note that the special educational terms for these three items of software are only available in conjunction with the enhancement package 10001/05. If the F1560 Remote Job Entry coupler is purchased as a separate item then the standard monthly software licence fee will be applicable.

Software Schedule C

<u>Set Number</u>	<u>Description</u>
<u>S44000/19</u>	<u>2903 Educational System 1900 programs</u>
S44000/04	Small system languages and consolidators: Algol 16K DA Plan 3 16K DA 8K DA UDAS utilities Extended data mode sort IBM 360 to 1900 conversion 1900 DMS Computer composition system FIND 2 source version Plan macro generator Scientific i/o subroutines
S44000/05	Small system with magnetic tape: Library maintenance MT sorts and merges Scientific utilities MT and PT EACS GIRO MT utilities (MT FIND)
S44000/06	Large system languages and utilities: Algol 32K DA Fortran 32K DA Plan 4 32K DA
S44000/07	Large system data management: NIMMS DMS PLUTO DMS
S44000/08	Basic system applications software (1): Statistical Analysis Survey Analysis

Matrix Fortran Translator ED
Matrix Algol Translator
CSL 16K ED
Linear Programming Mk 2 ED
Analogue Computer Simulation

S44000/09

Basic system applications software (2):
Space Frames ED
Plan Frames and Grids ED
Continuous Beam Analysis ED
Trim Loss (one and two dimensional)
Profile data
Furness Prediction Mk 3 ED
Capacity Restraint Traffic Assignment ED
Traverse Computation ED
Pewter ED
Power Systems Analysis

(a) Transient Stability 16K ED
(b) DC Network Analysis Mk 1
(c) DC Network Analysis Mk 2
(d) Load Flow and Short Circuit Analysis
(e) AC Load Flow Mk 2 16K ED

Scan 3 ED
Fortran Data File Handler
Perspective and Isometric Drawings
Fluid Distribution Network Analysis
Storm Sewer Design and Analysis ED
Pipe Stressing ED

S44000/10

Magnetic tape applications software (1):
Shread
MARC
Statistical Analysis MT
Survey Analysis MT
Matrix Fortran Translator MT

Fluid Distribution Network Analysis MT
Storm Sewer Design and Analysis MT
Plane Frames and Grids MT
Space Frames MT
Pipe Stressing MT
COMPAY MT

S44000/11

Magnetic tape applications software (2):
Continuous Beam Analysis MT
Vehicle Scheduling MT
Profile data
Furness Prediction Mk 3
Traffic Assignment MT
Capacity Restraint Traffic Assignment MT
Traverse Computation MT
Horizontal Transition Curve MT
Pattern Grading MT
Linear Programming Mk 2 MT
Cut and Fill MT
Power Systems Analysis

(a) Transient Stability MT
(b) AC Network Reduction MT
(c) AC Load Flow and Short Circuit Analysis MT
(d) AC Load Flow Mk 2 16K MT

S44000/12

Large system applications software (32K):
Linear Programming Mk 3
Vehicle Scheduling Mk 3 ED
Vehicle Scheduling Mk 2 MT
CSL 32K ED
CSL 32K MT
SLAM Mk 1
Power Systems Analysis (32K)

(a) AC Load Flow and Short Circuit Analysis Mk 1 32K
MT
(b) AC Load Flow and Short Circuit Analysis Mk 2 32K
MT

- (c) AC Load Flow and Short Circuit Analysis 32k
ED
- (d) AC Load Flow Mk 2 32K ED
- (e) AC Load Flow Mk 2 32K MT

Software Schedule D

The following software is designed for Computer Education in Schools and is available on direct application to:

The Manager, CES
ICL Computer House
322 Euston Road
London, NW1 3BD

JCES	Standard CESIL batch compiler
LCES	CESIL batch compiler for large programs
SCES	Compact CESIL batch compiler to run concurrently with interactive BASIC in a small store
DEWI	Welsh Language CESIL batch compiler
JSIR	Version 1 SIR batch assembler/interpreter
SSIR	Compact SIR batch assembler/interpreter
JSIR	Version 2 combined CESIL compiler and SIR assembler/interpreter
