

Mike Woodger's papers
on Algol 60

83 sept 23

RRP

Peter -

I should tell you that, on my retirement from NPL in March 1983,
I had to leave "all" my papers behind; in particular history of
Algol 60 etc.

However, NPL has agreed that they can be kept, catalogued, in
the Archives of the Library of the Science Museum, South Kensington,
London (which is a permanent 'home'). Public access is assured.

This move has been completed, although only a preliminary
list exists. (24 June 1983).
