

1/25/60

Dr. Peter Naur
Regnecentralen
G.L. Carlsbergvej 2,
Valby, Denmark.

Dear Peter:

I have no objection to your proposal of 17 Jan. 1960, concerning the removal of the distinction between procedures and functions if under the circumstances I believe that adoption of your proposal is the best course for us to take.

I hope that in our haste to complete the specification of the language we made no other major blunders, however I feel secure that your organization of the material for the report, will

uncover any additional ambiguities that exist.

I would like to take this opportunity to commend you on the excellence of the report that you presented at the meeting. The use of this report as a guide to our thinking was largely responsible for whatever success we may have achieved.

If I can be of any assistance to you in the formidable task of preparing the final report, please call upon me.

Sincerely
Charles Katz.
